

PRESS RELEASE – 2008

ECOcriações proposes to be a *full-service* Company in the segment of sustainable architecture. Its purpose is to create, to develop and to innovate architecture, eco-design, permaculture, geobiology, studies on energetic efficiency, eco-marketing and representation of products and ecological systems.

Founded in March of 2007, **ECOcriações** gathers experience in projects based on socio-environmental responsibility and its strategy, is to provide intelligent solutions in the Ecological and Sustainable segment.

ECOcriações has a clear comprehension of its business, being able to contribute in a pro-active and efficient manner to improve quality of life, in the physical, mental and social well-being of people and of our Planet.

With Central Headquarters in Oporto – Portugal, **ECOcriações** also acts in international markets, such as Brazil and Angola.

Projects Developed in 2007:

- Escola Anáhata Yoga (Yoga School) – Espinho, Portugal
- Loja Bionergia – Espinho, Portugal
- Morada Ecológica – Arcozelo, Portugal
- Recovery and Expansion – Rural Tourism – Cinfães, Portugal
- Support Building to biological agriculture and permaculture – Sintra, Portugal

-
- Theme-Park Cultura – Lousada, Portugal
 - Ecological Senior Home – Sobrado (Valongo), Portugal
 - House Expansion in Antas – Oporto, Portugal

ECOcriações is the result of the professional experience and the performance of eco-Architect Filipe Francisco, graduated by the Architecture College of Oporto's University, with specializations in Permaculture and Radiesthesia/Geobiology. He is a member of the Order of the Architects and he is a Conferencist.
